

Amended reports have been filed in response to the FEC's Request for Additional Information contained in correspondence dated 12/31/2008, 12/31/2008, 01/08/2009 and 01/13/2009.

The amended reports should include all information necessary to respond to the FEC's inquiries.

As noted by the FEC, a small number of contributions over \$1,000 were received by campaign staff during the period during which candidate committees are required to file 48 Hour Reports.

Unfortunately, these checks were not forwarded by campaign staff to the Committee Treasurer for the purpose of reporting and were subsequently reported on reports after the election date.

The campaign is in the process of reviewing recordkeeping, accounting and communication practices in order to improve operations and to meet our burden to report and disclose support.

All necessary improvements will be made - including additional training of campaign staff - to ensure that statutory deadlines regarding reporting are observed.

Additionally, the FEC requests additional information regarding a reimbursement for expenses paid to an employee. This reimbursement totalled more than \$200 and was not travel related.

The individual who received this reimbursement is no longer with the campaign and the campaign does not have information regarding the original vendor.
